excerpt from the net book agreement 1899 and the book war
1906 1908 two chapters in the history of the book trade
including a narrative of the dispute between the times book
club and the publishers association by edward bell m a
president of the association 1906 1908 the evils of
underselling and the possibility of countering them were and
for many years had been a constant subject of discussion
when i first went into business from an article which
appeared in fraser s magazine in june 1852 it would seem
that the question was a burning one at that date and a little
volume issued by john w parker 85 son in the same year the
opinions of certain authors on the bookselling question
makes it obvious that the controversy was by no means
confined to the trade at the date in question there was in
existence a book sellers association which bound its
members not to sell books at retail at less than their
published prices while the publishers agreed not to sell on
trade terms to anyone who was unable to produce a card of
membership of the associa tion it had occurred to certain
booksellers the most notable among them being gosse 2000

bickers 8 bush that their sales might be increased if they

offered books at bargain prices and that for the sake of increasing their turnover perhaps at the expense of their competitors and rivals it would pay them to work on a narrower margin of profit than was secured to them by the regulations of the booksellers association when these suggestions were put into practice the undersellers naturally found themselves at loggerheads with the publishers and also naturally looked round for the best means of securing their supplies which the publishers had cut off about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
