as a clinician working in my clinical practice for the last 35 years i have seen many cases of patients with high cholesterol levels and more importantly high ldl lipoproteins it appears that the number of patients seems to be increasing yearly and most of them have already started taking statin drugs in order to control their cholesterol levels when i tell them that it is possible to come

off these drugs and stabilize their cholesterol and ldl levels naturally while also optimizing their overall health and wellbeing they look at me like i m from another planet i understand why this is the case i really do if these patients who have usually seen a few medical doctors before sitting in front of me have been told that the only answer to their cholesterol problem is to take pills then who am i to disagree with the mainstream this is one of the reasons why i wrote this book in order to give people the information that they need to empower them to take responsibility for their health and become drug free and healthier in the meantime if you know what to do then it s not difficult i have witnessed hundreds of patients stabilizing their blood fats and getting better by making the changes that i am recommending in this book the beauty is that it does not take very long to achieve the desired results if everything i recommend in this book is implemented then you should see permanent results in 90 days i sincerely hope that you become one of the lucky ones who follows through on the recommendations i give and optimizes your health when you get there please write to me and let me know what you achieved let s begin our health journey by answering some of the basic questions like what is cholesterol is there bad and good cholesterol what is the normal range why do we need cholesterol and more

what if anything is esoteric pure land buddhism in 1224 the medieval japanese scholar monk dōhan 1179 1252 composed the compendium on esoteric mindfulness of buddha himitsu nenbutsu shō which begins with another seemingly simple question why is it that practitioners of mantra and meditation rely on the recitation of the name of the buddha amitayus to answer this question dōhan explored diverse areas of study spanning the whole of the east asian mahayana buddhist tradition although contemporary scholars often study esoteric buddhism and pure land buddhism as if they were mutually exclusive and diametrically opposed schools of buddhism in the present volume aaron proffitt examines dōhan's compendium in the context of the eastward flow of mahayana buddhism from india to japan and uncovers mahayana buddhists employing multiple overlapping so called esoteric approaches along the path to awakening proffitt divides his study into two parts in part i he considers how early buddhologists working under colonialism first constructed mahayana buddhism pure land buddhism and esoteric buddhism as discrete fields of inquiry he then surveys the flow of indian buddhist spells dhāraṇī and mantra texts into china and japan and the diverse range of buddhist masters who employed these esoteric techniques to achieve rebirth in sukhavati the pure land of bliss in part ii he considers the life of dōhan and analyzes the monk's comprehensive view of buddhānusmṛti as a form of ritual technology that unified body and mind sukhavati as a this worldly or other worldly soteriological goal synonymous with nirvana itself and the buddha amitayus as an object of devotion beyond this world of suffering the work concludes with the first full translation of dōhan's himitsu nenbutsu shō into a modern language
