CODE OF FEDERAL REGULATIONS 2002 THIS BOOK DISCUSSES THE CONSTRUCTIONS USED IN BELARUSIAN AND LITHUANIAN TO EXPRESS PREDICATIVE POSSESSION THE WORK IS WRITTEN WITHIN A TYPOLOGICAL FRAME THE BELARUSIAN AND LITHUANIAN CONSTRUCTIONS ARE ANALYZED IN THE LIGHT OF THE TYPOLOGY OF THE POSSESSIVE PREDICATIVE CONSTRUCTIONS PROPOSED BY HEINE 1997

Soccer IQ Presents Possession 2015-04-10 This book discusses existential and possessive constructions in two important yet under studied language families Slavic and Finno Ugric using data from the Slavic languages of Polish Belarusian and Russian and the Finno Ugric languages of Finnish Hungarian Meadow Mari Komi Permyak and Udmurt as well as the closely related Selkup of the Samoyedic family The chapters in this volume analyse predicative possession in current syntactic terms seeking an answer to the theoretical question of whether be possessives and have possessives are just accidental values of the possessive parameter or are intrinsically related This book takes a comparative approach to a whole range of syntactic and semantic phenomena that appear in these constructions including the definiteness restriction genitive of negation person number agreement argument structure and extractability The individual case studies can be easily integrated into the principles parameters framework in terms of parametric variation Approaches to predicative possession is an important contribution to our understanding of predicative possession across languages with findings that can be fruitfully extended to other language families It is an equally useful source of information for theoretical linguists typologists and graduate students of linguistics

My Very Last Possession 1999-06-18 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the federal government

My Very Last Possession and Other Stories 2018-10-24 A history that reframes the Bolsheviks unprecedented attempts to abolish private property after the revolutions of 1917 The revolutions of 1917 swept away not only Russia's governing authority but also the property order on which it stood The upheaval sparked waves of dispossession that rapidly moved beyond the seizure of factories and farms from industrialists and landowners envisioned by Bolshevik revolutionaries to penetrate the bedrock of social life The spaces where people lived in power and possession in the Russian Revolution Anne O'Donnell reimagines the Bolsheviks unprecedented effort to eradicate private property and to create a new political economy socialism to replace it O'Donnell's account captures the story of property in reverse showing how the bonds connecting people to their things were broken and how new ways of knowing things valuing them and possessing them coalesced amid the political ferment and economic disarray of the revolution O'Donnell reminds us that Russia's postrevolutionary confiscation of property like many other episodes of mass dispossession in the twentieth century largely escaped traditional forms of record keeping She repairs this omission drawing on sources that chronicle the lived experience of upheaval popular petitions apartment inspections internal audits of revolutionary institutions and records of the political police to reconstruct an archive of dispossession The result is an unusually intimate history of the Bolsheviks' attempts to conquer people and things The Bolsheviks' reimagining of property not only changed people's lives and destinies it formed the foundation of a new type of state one that eschewed the defense of private

PROPERTY RIGHTS IN FAVOR OF AN ENDURING BUT ENIGMATIC NEW DOMAIN SOCIALIST STATE PROPERTY
