lucky you you have an audition now what an audition is a truthful clip of a moment lived in a surreal circumstance that must clearly exist in the actor s mind and carry physical weight and presence it only takes knowing how often acting classes are about theater scene study performance memorized lines sets costumes etc and the luxury of time auditioning for a part in film and television has its own skill set usually an actor has one day to get ready assess a character breakdown the clothes on his back perhaps a chair in an empty space and a stranger with whom to read gerry cousins fashioned in the moment as a direct segue into the professional world of film and television emphasizing craft focus preparation relaxation and commitment in her workbook as in the studio she stresses individualism to meet each student s needs no single technique for all step by step scene by scene she builds on what went before and what to do next until you re there whether an actor trial lawyer executive sales and marketing professional you have a voice that should be heard who am i in this moment and how am i going to communicate that gerry will teach you how to prepare your script make choices and understand where you re coming from when it comes down to it what people see what they want to see is not a role or character or piece of work certainly not a performance what they want to see is you

the history of drama is typically viewed as a series of inert styles tracing british and american stage drama from the 1880s onward w b worthen instead sees drama as the interplay of text stage production and audience how are audiences manipulated what makes drama meaningful worthen identifies three rhetorical strategies that distinguish an o neill play from a yeats or these two from a brecht where realistic theater relies on the natural qualities of the stage scene poetic theater uses the poet s word the text to control performance modern political theater by contrast openly places the audience at the center of its rhetorical designs and the drama of the postwar period is shown to develop a range of post brechtian practices that make the audience the subject of the play worthen s book deserves the attention of any literary critic or serious theatergoer interested in the relationship between modern drama and the spectator

The director's vision is a dynamic practical text that focuses equally on the art of interpretation and on problem solving. Catron helps students develop an organized step-by-step methodology from play analysis through performance. Practical focus. Catron deftly combines abstract ideas about directing with concrete strategies on preparing for production auditions, casting, and rehearsals. Comprehensive scope included are important topics such as in-depth play analysis, directorial responsibilities and ethics, leadership techniques, how to work with actors, and problem-solving exercises. End-of-chapter exercises help students digest what they've read and get actively involved in the craft of directing. Quotes and illustrations, thoughts from well-known directors, actors, and writers appear throughout the book, providing motivation, insight, and perspective. Abundant photographs and diagrams offer effective, dynamic examples of concepts.
