**NO.6** 2012-03-05 如何从艺术家的思维到博物馆收藏家的存储空间或垃圾场

*My Life as a Work of Art* 2016 how to cut through the labyrinthine contemporary art world from the complex and animated process starting in the mind of an artist to the end in a museum collector s property storage space or dump via workshops galleries and art fairs the best way is to follow the only witness to all these developments the work of art itself this book follows the life of works by eight major contemporary artists from martin creed s conceptual works and gregory crewdson s photographs requiring crews and production values similar to that of big budget movies to marina abramović s performances and barry mcgee s motorway sound barrier graffiti touching upon the ambivalent relationship between street art and the art market

**The Work of Art** 2017 artists are everywhere from celebrities showing at moma to locals hoping for a spot on a café wall they are photographed at gallery openings in new york and los angeles hustle in fast gentrifying cities and sometimes make quiet lives in midwestern monasteries some command armies of fabricators while others patiently teach schoolchildren how to finger knit all of these artists might well be shown in the same exhibition the quality of work far more important than education or income in determining whether one counts as a real artist in the work of art alison gerber explores these art worlds to investigate who artists are and who they re not why they do the things they do and whether a sense of vocational calling and the need to make a living are as incompatible as we ve been led to believe listening to the stories of artists from across the united states gerber finds patterns of agreements and disagreements shared by art makers from all walks of life for professionals and hobbyists alike the alliance of love and money has become central to contemporary art making and danger awaits those who fail to strike a balance between the two the stories artists tell are just as much a part of artistic practice as putting brush to canvas or chisel to marble by explaining the shared ways that artists account for their activities the analogies they draw the arguments they make gerber reveals the common bases of value artists point to when they say what i do is worth doing the work of art asks how we make sense of the things we do and shows why all this talk about value matters so much
