just a decade ago china maintained only a handful of operating wind turbines all imported from europe and the united states surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record august 2022 issue vol 99 no 8 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 100 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record october 2022 issue vol 99 no 10 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record november 2022 issue vol 99 no 11 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2022 issue vol 99 no 6 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record january 2022 issue vol 99 no 1 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record march 2022 issue vol 99 no 3 this book offers a comprehensive and timely overview of internal combustion engines for use in marine environments it reviews the development of modern four stroke marine engines gas and gas diesel engines and low speed two stroke crosshead engines describing their application areas and providing readers with a useful snapshot of their technical features e g their dimensions weights cylinder arrangements cylinder capabilities rotation speeds and exhaust gas temperatures for each marine engine information is provided on the manufacturer historical background development and technical characteristics of the manufacturer s most popular models and detailed drawings of the engine depicting its main design features this book offers a unique self contained reference guide for engineers and professionals involved in shipbuilding at the same time it is intended to support students at maritime academies and university students in naval architecture marine engineering with their design projects at both master and graduate levels thus filling an important gap in the literature surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and

more over 1 100 businesses list with the surplus record september 2022 issue vol 99 no 9 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record may 2022 issue vol 99 no 5 this book represents the eighth edition of what has become 3 n established reference work major companies of the guide to the ar east australasia this volume has been carefully esearched and updated since publication of the previous arrangement of the book 3dition and provides more company data on the most mportant companies in the region the information in the this book has been arranged in order to allow the reader to ok was submitted mostly by the companies themselves find any entry rapidly and accurately i ompletely free of charge for the second time a third volume ilas been added to the series covering major companies in company entries are listed alphabetically within each section ustralia and new zealand in addition three indexes are provided on coloured paper at the back of the book he companies listed have been selected on the grounds of lhe size of their sales volume or balance sheet or their the alphabetical index to companies throughout east asia lists lliportance to the business environment of the country in all companies having entries in the book irrespective of their which they are based main country of operation ore book is updated and published every year any company the alphabetical index to companies within each country of flat considers it is eligible for inclusion in the next edition of east asia lists companies by their country of operation surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record april 2023 issue vol 100 no 4 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record november 2023 issue vol 101 no 1 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2023 issue vol 100 no 8 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 120 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record september 2023 issue vol 100 no 9 energy is crucial to the functioning of any human society and central to understanding east asia s economic miracle the region s rapid development over the last few decades has been inherently energy intensive and the impact on global energy security climate change and the twenty first century global system generally is now very significant and will become more so over foreseeable years and decades to come the region is already the world s largest energy consumer and greenhouse gas emitter so establishing cleaner energy systems in east asia is both a regional and global challenge and renewable energy has a critically important part to play in meeting it this book presents a comprehensive

study of renewable energy development in east asia it begins by examining renewable energy development in global and historic contexts and situates east asia s position in the recent worldwide expansion of renewables this same approach is applied on sector specific chapter studies on wind solar hydropower geothermal ocean wave and tidal and bioenergy and to general trends in renewable energy policy governments play a critical role in promoting renewables and their contribution to tackling climate change and other environmental challenges christopher m dent argues this is particularly relevant to east asia where state capacity practice has been increasingly allied to ecological modernisation thinking to form what he calls new developmentalism the principal foundation on which renewables have developed in the region as well as how east asia s low carbon development is being generally promoted renewable energy in east asia will be of huge interest to students and scholars of asian studies economics political economy energy studies business development international relations and environmental studies it will also appeal to researchers working on the subject matter in government business international organisations think tanks and civil society organisations asia was probably the biggest economic sensation of the post war decades the breathtaking success of japan was followed by a remarkable rise of four tigers then asean founder states and then china the asian miracle became a commonly accepted definition of this success in the late 1970s and especially 80s it became clear that the balance of power in the world had changed politicians businessmen scholars began to talk about the new asia pacific age and asian economic model different from and maybe even superior to western capitalism however in 1997 98 the asian economic crisis came and made the region a sick man six years before that japan the regional powerhouse entered more than a decade long period of stagnation the miracle was over however the crisis was overcome within a surprisingly short period of time naturally the question arises what now what is going on in the region after the miracle and after the crisis what is today s face of asian capitalism and how should we view its performance readers interested in regional developments will find a lot of literature about miracle decades and crisis years however few analysts have addressed the challenging questions addressed in this book the authors vividly show that asian capitalism is undergoing a radical structural transformation these changes are directly affecting its key institutions governments companies labor relations etc as a result asian economic systems are becoming much closer to the western style especially anglo saxon capitalism though the region retains some important specific features especially regarding business culture this book is a must for business people worldwide for all those who study the region in colleges and business schools for people engaged in various international activities and finally for all those who want learn more about our world at the dawn of the new century the primary objective of the asia pacific conference on engineering plasticity and its applications aepa is to provide a free forum for exchanging ideas and introducing the latest research findings in the field of engineering plasticity this conference is unique among the related conferences in that it provides a forum for all fields of plasticity so that multi disciplinary research works are encouraged this proceedings volume consists of papers presented at aepa2008 and covers the following categories in all fields of engineering plasticity constitutive modeling damage fracture fatigue and failure dynamic loading and crash dynamics engineering applications and case studies experimental and numerical techniques molecular dynamics nano meso micro and crystal plasticity phase transformations plastic instability and strain localization plasticity in advanced materials plasticity in materials processing technology plasticity in tribology porous cellular and composite materials structural plasticity superplasticity and time dependent deformation ranging from nanoscale to macroscale applications of engineering plasticity this book touches upon fields as diverse as mechanical engineering materials science physics chemistry and civil engineering the determinants of a firm s innovative capacity are rooted in organizational design incentives human resources internal culture and external linkages profiting from innovation is always a challenge and licensing is one of many options green manufacturing has developed into an essential aspect of

contemporary manufacturing practices calling for environmentally friendly and sustainable techniques implementing successful green manufacturing processes not only improves business efficiency and competitiveness but also reduces harmful production in the environment the handbook of research on green engineering techniques for modern manufacturing provides emerging perspectives on the theoretical and practical aspects of green industrial concepts such as green supply chain management and reverse logistics for the sustainable utilization of resources and applications within manufacturing and engineering featuring coverage on a broad range of topics such as additive manufacturing integrated manufacturing systems and machine materials this publication is ideally designed for engineers environmental professionals researchers academicians managers policymakers and graduate level students seeking current research on recent and sustainable practices in manufacturing processes this book explores the historical and economic development of south korea its culture as well as the benefits opportunities and challenges that german companies have faced in their cooperation with south korean enterprises more specifically it juxtaposes economic miracle markets such as japan and west germany which rose from the ashes after the second world war with the help of a century of bustling industrial age with south korea which developed from virtually nothing the book also addresses why south korea s history geography society culture and economic capabilities remain widely unknown and unnoticed among westerners despite south korean companies being among the global market leaders in a number of industries particularly in the automobile and hardware segments written from the point of view of a seasoned business expert on the country economic miracle market south korea is essential reading for business and economics research academics looking to improve their knowledge of this relatively unknown success story as well as for practitioners in industry looking to optimize their dealings with south korean business partners surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2023 issue vol 100 no 6 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record march 2023 issue vol 100 no 3 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record may 2023 issue vol 100 no 5 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2023 issue vol 100 no 7 this is a collection of the major writings to have appeared on foreign direct investment fdi and technological change since 1966 its coverage includes the early analysis of fdi and technology and the theoretical foundations of the analysis of technological change in multinational firms since the 1980s spain and south korea have experienced a dramatic transformation from middle income to advanced economies while market liberalization and globalization

were important forces for change and while states continue to be central in the organization of the spanish and south korean economies the liberal and the developmental state perspectives do not provide an understanding of critical elements of these transformations building on a combination of historical institutionalism and international business literature this book shows that upgrading was underpinned by cooperative models based on interdependencies and quid pro quo exchanges between national governments and large firms the negotiated nature of these arrangements opened the door to institutional variation and enabled spain and south korea to pursue different strategies spain pursued an integrational approach based on foreign direct investment technological outsourcing and regional integration south korea pursued a techno industrial strategy that prioritized self sufficiency and the development of local technological capacity both strategies enabled spanish and south korean firms across multiple complex sectors to reach the efficiency frontier but resulted in different productive specializations in complex services and manufacturing respectively through a comparative study this book shifts our perspective on the political economy of economic transformation from markets or states to state firm coordination as a driver for economic transformation from one to at least two different pathways to upgrading and from a world divided into emerging economies and world leaders to a more nuanced perspective that recognizes the perspective of new advanced economies this book represents the seventh edition of what has become an established reference work major companies of the far east australasia this volume has been carefully researched and updated since publication of the sixth edition and provides more company data on the most important companies in the region the information in the book was submitted mostly by the companies themselves completely free of charge for the first time a third volume has been added to the series covering major companies in australia and new zealand the companies listed have been selected on the grounds of the size of their sales volume or balance sheet or their importance to the business environment of the country in which they are based the book will be updated and published every year any company that considers it is eligible for inclusion in the next edition of major companies of the far east australasia should write to the publishers no charge whatsoever is made for publishing details about a principal asian company whilst the publishers have taken every care to ensure accurate reporting of the company information contained in this book no liability can be accepted by either the publishers their editorial staff or their distributors for any errors or omissions nor for the consequences thereof graham trotman ltd is a member of the kluwer academic publishers group and publishes over 450 business and technology books a catalogue is available on request the results of the empirical investigation of japan and korea show that the user firms in both countries represented by car makers have involved themselves in the technical and entrepreneurial entry into machine tools along with making active investments as a consequence they made a considerable contribution to the innovation of machine tools increasing their competitive advantage as well as the competence of their specialized suppliers south korea s triumphant development has catapulted the country s economy to the eleventh largest in the world large family owned conglomerates or chaeböls such as samsung hyundai and lg have become globally preeminent manufacturing brands yet korea s highly disciplined technologically competent skilled workers who built these brands have become known only for their successful labor union militancy which in recent decades has been criticized as collective selfishness that has allowed them to prosper at the expense of other workers hyung a kim tells the story of korea s first generation of skilled workers in the heavy and chemical industries sector following their dramatic transition from 1970s era industrial warriors to labor union militant goliath warriors and ultimately to a labor aristocracy with guaranteed job security superior wages and even job inheritance for their children by contrast millions of korea s non regular employees especially young people struggle in precarious and insecure employment this richly documented account demonstrates that industrial workers most enduring goal has been their own economic advancement not a wider socialist revolution and shows

how these individuals paths embody the consequences of rapid development this book represents the ninth edition of what has become an established reference work major companies of the guide to the far east australasia this volume has been carefully researched and updated since publication of the previous arrangement of the book edition and provides more company data on the most important companies in the region the information in the this book has been arranged in order to allow the reader to book was submitted mostly by the companies themselves find any entry rapidly and accurately completely free of charge the companies listed have been selected on the grounds of company entries are listed alphabetically within each section the size of their sales volume or balance sheet or their in addition three indexes are provided on coloured paper at importance to the business environment of the country in the back of the book which they are based the alphabetical index to companies throughout east asia lists the book is updated and published every year any company all companies having entries in the book irrespective of their that considers it is eligible for inclusion in the next edition of main country of operation major companies of the far east australasia the alphabetical index to companies within each country of should write to the publishers no charge whatsoever is made east asia lists companies by their country of operation for publishing details about a company

Green Innovation in China 2013

just a decade ago china maintained only a handful of operating wind turbines all imported from europe and the united states

August 2022 - Surplus Record Machinery & Equipment Directory 2022-08-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record august 2022 issue vol 99 no 8

October 2022 - Surplus Record Machinery & Equipment Directory 2022-10-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 100 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record october 2022 issue vol 99 no 10

November 2022 - Surplus Record Machinery & Equipment Directory 2022-11-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record november 2022 issue vol 99 no 11

June 2022 - Surplus Record Machinery & Equipment Directory 2022-06-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2022 issue vol 99 no 6

January 2022 - Surplus Record Machinery & Equipment Directory 2022-01-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record

january 2022 issue vol 99 no 1

March 2022 - Surplus Record Machinery & Equipment Directory 2022-03-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record march 2022 issue vol 99 no 3

Modern Marine Internal Combustion Engines 2020-06-30

this book offers a comprehensive and timely overview of internal combustion engines for use in marine environments it reviews the development of modern four stroke marine engines gas and gas diesel engines and low speed two stroke crosshead engines describing their application areas and providing readers with a useful snapshot of their technical features e g their dimensions weights cylinder arrangements cylinder capabilities rotation speeds and exhaust gas temperatures for each marine engine information is provided on the manufacturer historical background development and technical characteristics of the manufacturer s most popular models and detailed drawings of the engine depicting its main design features this book offers a unique self contained reference guide for engineers and professionals involved in shipbuilding at the same time it is intended to support students at maritime academies and university students in naval architecture marine engineering with their design projects at both master and graduate levels thus filling an important gap in the literature

September 2022 - Surplus Record Machinery & Equipment Directory 2022-09-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record september 2022 issue vol 99 no 9

May 2022 - Surplus Record Machinery & Equipment Directory 2022-05-01

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record may 2022 issue vol 99 no 5

Major Companies of The Far East and Australasia

1991/92 2012-12-06

this book represents the eighth edition of what has become a well established reference work. Major companies of the guide to the far east Australasia this volume has been carefully researched and updated since publication of the previous arrangement of the book. 3rd edition and provides more company data on the most important companies in the region. The information in this book has been arranged in order to allow the reader to look up any entry rapidly and accurately. It is completely free of charge for the second time a third volume has been added to the series covering major companies in Australia and New Zealand. In addition three indexes are provided on coloured paper at the back of the book. The companies listed have been selected on the grounds of the size of their sales volume or balance sheet or their importance to the business environment of the country. In all companies having entries in the book irrespective of their main country of operation. The book is updated and published every year. The alphabetical index to companies within each country of that considers it is eligible for inclusion in the next edition of east Asia lists companies by their country of operation.

April 2023 - Surplus Record Machinery & Equipment Directory 1991

Surplus Record is the leading independent business directory of new and used capital equipment, machine tools, machinery and industrial equipment listing over 110,000 industrial assets since 1924 including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines and more. Over 1,100 businesses list with the Surplus Record April 2023 issue, Vol 100 No 4.

The State, Technology, and Industrial Competitiveness 2014-11-27

Surplus Record is the leading independent business directory of new and used capital equipment, machine tools, machinery and industrial equipment listing over 110,000 industrial assets since 1924 including metalworking and fabricating machine tools, lathes, CNC equipment, machine centers, woodworking equipment, food equipment, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines and more. Over 1,100 businesses list with the Surplus Record November 2023 issue, Vol 101 No 1.

January 2024 - Surplus Record Machinery & Equipment 2012-11-26

Surplus Record is the leading independent business directory of new and used capital equipment, machine tools, machinery and industrial equipment listing over 110,000 industrial assets since 1924 including metalworking and fabricating machine tools, lathes, CNC equipment, machine centers, woodworking equipment, food equipment, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines and more. Over 1,100 businesses list with the Surplus Record June 2023 issue, Vol 100 No 8.

August 2023 - Surplus Record Machinery & Equipment Directory 2009

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 120 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record september 2023 issue vol 100 no 9

September 2023 - Surplus Record Machinery & Equipment 1998

energy is crucial to the functioning of any human society and central to understanding east asia s economic miracle the region s rapid development over the last few decades has been inherently energy intensive and the impact on global energy security climate change and the twenty first century global system generally is now very significant and will become more so over foreseeable years and decades to come the region is already the world s largest energy consumer and greenhouse gas emitter so establishing cleaner energy systems in east asia is both a regional and global challenge and renewable energy has a critically important part to play in meeting it this book presents a comprehensive study of renewable energy development in east asia it begins by examining renewable energy development in global and historic contexts and situates east asia s position in the recent worldwide expansion of renewables this same approach is applied on sector specific chapter studies on wind solar hydropower geothermal ocean wave and tidal and bioenergy and to general trends in renewable energy policy governments play a critical role in promoting renewables and their contribution to tackling climate change and other environmental challenges christopher m dent argues this is particularly relevant to east asia where state capacity practice has been increasingly allied to ecological modernisation thinking to form what he calls new developmentalism the principal foundation on which renewables have developed in the region as well as how east asia s low carbon development is being generally promoted renewable energy in east asia will be of huge interest to students and scholars of asian studies economics political economy energy studies business development international relations and environmental studies it will also appeal to researchers working on the subject matter in government business international organisations think tanks and civil society organisations

Renewable Energy in East Asia 2018-11-16

asia was probably the biggest economic sensation of the post war decades the breathtaking success of japan was followed by a remarkable rise of four tigers then asean founder states and then china the asian miracle became a commonly accepted definition of this success in the late 1970s and especially 80s it became clear that the balance of power in the world had changed politicians businessmen scholars began to talk about the new asia pacific age and asian economic model different from and maybe even superior to western capitalism however in 1997 98 the asian economic crisis came and made the region a sick man six years before that japan the regional powerhouse entered more than a decade long period of stagnation the miracle was over however the crisis was overcome within a surprisingly short period of time naturally the question arises what now what is going on in the region after the miracle and after the crisis what is today s face of asian capitalism and how should we view its performance readers interested in regional developments will find a lot of literature

about miracle decades and crisis years however few analysts have addressed the challenging questions addressed in this book the authors vividly show that asian capitalism is undergoing a radical structural transformation these changes are directly affecting its key institutions governments companies labor relations etc as a result asian economic systems are becoming much closer to the western style especially anglo saxon capitalism though the region retains some important specific features especially regarding business culture this book is a must for business people worldwide for all those who study the region in colleges and business schools for people engaged in various international activities and finally for all those who want to learn more about our world at the dawn of the new century

Asia's Turning Point 2016-03-07

the primary objective of the asia pacific conference on engineering plasticity and its applications aepa is to provide a free forum for exchanging ideas and introducing the latest research findings in the field of engineering plasticity this conference is unique among the related conferences in that it provides a forum for all fields of plasticity so that multi disciplinary research works are encouraged this proceedings volume consists of papers presented at aepa2008 and covers the following categories in all fields of engineering plasticity constitutive modeling damage fracture fatigue and failure dynamic loading and crash dynamics engineering applications and case studies experimental and numerical techniques molecular dynamics nano meso micro and crystal plasticity phase transformations plastic instability and strain localization plasticity in advanced materials plasticity in materials processing technology plasticity in tribology porous cellular and composite materials structural plasticity superplasticity and time dependent deformation ranging from nanoscale to macroscale applications of engineering plasticity this book touches upon fields as diverse as mechanical engineering materials science physics chemistry and civil engineering

Engineering Plasticity and Its Applications from Nanoscale to Macroscale 2023-05-01

the determinants of a firm's innovative capacity are rooted in organizational design incentives human resources internal culture and external linkages profiting from innovation is always a challenge and licensing is one of many options

Technology, Organization, and Competitiveness 2007

green manufacturing has developed into an essential aspect of contemporary manufacturing practices calling for environmentally friendly and sustainable techniques implementing successful green manufacturing processes not only improves business efficiency and competitiveness but also reduces harmful production in the environment the handbook of research on green engineering techniques for modern manufacturing provides emerging perspectives on the theoretical and practical aspects of green industrial concepts such as green supply chain management and reverse logistics for the sustainable utilization of resources and applications within manufacturing and engineering featuring coverage on a broad range of topics such as additive manufacturing integrated manufacturing systems and machine materials this publication is ideally designed for engineers environmental professionals researchers academicians managers policymakers and graduate level students seeking current research on recent and sustainable practices in manufacturing processes

Handbook of Research on Green Engineering Techniques for Modern Manufacturing 1999

this book explores the historical and economic development of south korea its culture as well as the benefits opportunities and challenges that german companies have faced in their cooperation with south korean enterprises more specifically it juxtaposes economic miracle markets such as japan and west germany which rose from the ashes after the second world war with the help of a century of bustling industrial age with south korea which developed from virtually nothing the book also addresses why south korea s history geography society culture and economic capabilities remain widely unknown and unnoticed among westerners despite south korean companies being among the global market leaders in a number of industries particularly in the automobile and hardware segments written from the point of view of a seasoned business expert on the country economic miracle market south korea is essential reading for business and economics research academics looking to improve their knowledge of this relatively unknown success story as well as for practitioners in industry looking to optimize their dealings with south korean business partners

Economic Miracle Market South Korea 2021-08-19

surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2023 issue vol 100 no 6

Korea Economic Report 2014-07-10

this is a collection of the major writings to have appeared on foreign direct investment fdi and technological change since 1966 its coverage includes the early analysis of fdi and technology and the theoretical foundations of the analysis of technological change in multinational firms

The Oil & Gas Year Qatar 2010 1990

since the 1980s spain and south korea have experienced a dramatic transformation from middle income to advanced economies while market liberalization and globalization were important forces for change and while states continue to be central in the organization of the spanish and south korean economies the liberal and the developmental state perspectives do not provide an understanding of critical elements of these transformations building on a combination of historical institutionalism and international business literature this book shows that upgrading was underpinned by cooperative models based on interdependencies and quid pro quo exchanges between national governments and large firms the negotiated nature of these arrangements opened the door to institutional variation and enabled spain and south korea to pursue different strategies spain pursued an integrational approach based on foreign direct investment technological outsourcing and regional integration south korea pursued a techno industrial strategy that prioritized self sufficiency and the development of local technological capacity both strategies enabled spanish and south korean firms across multiple complex sectors to reach the efficiency frontier but resulted in different productive specializations in complex services and manufacturing respectively through a comparative study this book shifts our perspective on the political economy of economic transformation from markets or states to state firm coordination as a driver for economic transformation from one to at least two different pathways to upgrading and from a world divided into emerging economies and world leaders to a more nuanced perspective that recognizes the perspective of new advanced economies

July 2023 - Surplus Record Machinery & Equipment Directory 1994

this book represents the seventh edition of what has become an established reference work major companies of the far east australasia this volume has been carefully researched and updated since publication of the sixth edition and provides more company data on the most important companies in the region the information in the book was submitted mostly by the companies themselves completely free of charge for the first time a third volume has been added to the series covering major companies in australia and new zealand the companies listed have been selected on the grounds of the size of their sales volume or balance sheet or their importance to the business environment of the country in which they are based the book will be updated and published every year any company that considers it is eligible for inclusion in the next edition of major companies of the far east australasia should write to the publishers no charge whatsoever is made for publishing details about a principal asian company whilst the publishers have taken every care to ensure accurate reporting of the company information contained in this book no liability can be accepted by either the publishers their editorial staff or their distributors for any

Foreign Direct Investment and Technological Change: Technology creation and its economic impact 2020-05-15

the results of the empirical investigation of japan and korea show that the user firms in both countries represented by car makers have involved themselves in the technical and entrepreneurial entry into machine tools along with making active investments as a consequence they made a considerable contribution to the innovation of machine tools increasing their competitive advantage as well as the competence of their specialized suppliers

State-Firm Coordination and Upgrading 2017-11-07

south korea s triumphant development has catapulted the country s economy to the eleventh largest in the world large family owned conglomerates or chaeböls such as samsung hyundai and lg have become globally preeminent manufacturing brands yet korea s highly disciplined technologically competent skilled workers who built these brands have become known only for their successful labor union militancy which in recent decades has been criticized as collective selfishness that has allowed them to prosper at the expense of other workers hyung a kim tells the story of korea s first generation of skilled workers in the heavy and chemical industries sector following their dramatic transition from 1970s era industrial warriors to labor union militant goliath warriors and ultimately to a labor aristocracy with guaranteed job security superior wages and even job inheritance for their children by contrast millions of korea s non regular employees especially young people struggle in precarious and insecure employment this richly documented account demonstrates that industrial workers most enduring goal has been their own economic advancement not a wider socialist revolution and shows how these individuals paths embody the consequences of rapid development

Major Companies of The Far East and Australasia 1990/91 2000

this book represents the ninth edition of what has become an established reference work major companies of the guide to the far east australasia this volume has been carefully researched and updated since publication of the previous arrangement of the book edition and provides more company data on the most important companies in the region the information in the this book has been arranged in order to allow the reader to book was submitted mostly by the companies themselves find any entry rapidly and accurately completely free of charge the companies listed have been selected on the grounds of company entries are listed alphabetically within each section the size of their sales volume or balance sheet or their in addition three indexes are provided on coloured paper at importance to the business environment of the country in the back of the book which they are based the alphabetical index to companies throughout east asia lists the book is updated and published every year any company all companies having entries in the book irrespective of their that considers it is eligible for inclusion in the next edition of main country of operation major companies of the far east australasia the alphabetical index to companies within each country of should write to the publishers no charge whatsoever is made east asia lists companies by their country of operation for publishing details about a company
