taking matters into our own hands is the decision of activists leaders politicians clergy and concerned citizens to use their influence to its highest potential in both conventional and nonconventional measures to shine a light on unjust beatings and homicides of unarmed african americans violence permeates our society but when that violence comes at the hands of those charged with protecting us and upholding the law public trust is shattered and the rights to which every citizen is entitled are called into question we must let the perpetrators of these unjust beatings and homicides know that a foundation built on lies and cover ups cannot stand this is not the idea of engaging in unlawful divisive forms of protest or rhetoric but rather coming to the conclusion that you are the agent of change that you want to see that all individuals are qualified to use their voices their cell phones their social media their music their resources their legal minds their political connections their creative ability their god given talents whatever they may be to let the world know that this unjust killing must come to an end
