## Places In The Primary School

2012-10-12

Lucy Pearson's lively and engaging book examines British children's literature during the period widely regarded as a second golden age drawing extensively on archival material. Pearson investigates the practical and ideological factors that shaped ideas of good children's literature in Britain with particular attention to children's book publishing. Pearson begins with a critical overview of the discourse surrounding children's literature during the 1960s and 1970s summarizing the main critical debates in the context of the broader social conversation that took place around children and childhood. The contributions of publishing houses large and small to changing ideas about children's literature become apparent as Pearson explores the careers of two enormously influential children's editors Kaye Webb of Puffin Books and Aidan Chambers of Topliner Macmillan. Brilliant as an innovator of highly successful marketing strategies Webb played a key role in defining what were in her words the best in children's books while Chambers work as an editor and critic illustrates the pioneering nature of children's publishing during this period. Pearson shows that social investment was a central factor in the formation of this golden age and identifies its legacies in the modern publishing industry both positive and negative.
