*Go-To Telescopes Under Suburban Skies* 2010-09-14 go to telescopes under suburban skies is the first book specifically written for amateur astronomers who own or who are about to purchase a computer controlled go to telescope the advantage of the go to capability is enormous the telescope can be aimed at any object in the sky with great speed and accuracy which is why these instruments are so popular making the realistic assumption that the observer is using a relatively small telescope and is observing from a backyard in a suburban area this book provides literally hundreds more targets beyond those offered by the built in nightly tours that feature on the telescope s computer tours and instead of wasting many pages on maps and coordinates it leads the computer to locate the targets and so has room to suggest many more fascinating deep sky objects and provide detailed observing lists and information about what s being viewed

**Memoirs of the Royal Astronomical Society** 1877 library catalogue in 1911 31 p appended to v 4

**A Complete System of Astronomy** 1814 lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the nasa scientific and technical information database

**Journal de la Société Royale D'astronomie Du Canada** 1991 analyses of photometric time series obtained from the most corot and kepler space missions

were presented at the 20th conference on stellar pulsations granada september 2011 these results are leading to a re appraisal of our views on stellar pulsation in some stars and posing some new and unexpected challenges the very important and exciting role played by innovative ground based observational techniques such as interferometric measurements of giant pulsating stars and high resolution spectroscopy in the near infrared is also discussed these proceedings are distinguished by the format of the conference which brings together a variety of related but different topics not found in other meetings of this nature

**Scientific and Technical Aerospace Reports** 1981 annals of the international geophysical year part i nuclear radiation techniques for radioactivity measurements covers the techniques for radioactivity measurement observations of aurora and airglow and instructions for the longitude and altitude program this book is organized into three parts encompassing 11 chapters the first part presents the techniques for radioactivity measurements the second part describes the geographical distribution visual observations and photographic and photometric evaluations of aurora and airglow the third part provides instructions for operation of the moon position camera including camera settings and operation field plotting and star marking this part also presents additional instructions for pzt use in the longitude and latitude program this book will prove useful to geophysicists and researchers in the allied fields

**Stellar Pulsations** 2012-10-20 list of quarto publications exclusive of the annals made by the officers of the observatory from 1877 to 1896 with references to the work of the blue hill observatory from 1885 to 1895 v 30 p 3 8

Report of the ... Meeting 1872 astronomy and astrophysics abstracts which has appeared in semi annual volumes since 1969 is devoted to the recording summarizing and indexing of astronomical publications throughout the world it is prepared under the auspices of the international astronomical union according to a resolution adopted at the 14th general assembly in 1970 astronomy and astrophysics abstracts aims to present a comprehensive documentation of literature in all fields of astronomy and astrophysics every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months this time interval is near to that achieved by monthly abstracting journals compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user volume 18 contains literature published in 1976 and received before march 1 1977 some older literature which was received late and which is not recorded in earlier volumes is also included

Nuclear Radiation 2013-10-02 the poetical gazette the official organ of the poetry society and a review of poetical affairs nos 4 7 issued as supplements to the academy v 79 oct 15 nov 5 dec 3 and 31 1910

**The Spectra of Stars of Secchi's Fourth Type** 1903 the ninth edition of this successful textbook describes the full range of the astronomical universe and how astronomers think about the cosmos

Senate documents 1883 deportes uncovers the hidden experiences of mexican male and female athletes teams and leagues and their supporters who fought for a more level playing field on both sides of the border they proved that they could compete in a wide variety of sports at amateur semiprofessional olympic and professional levels

*Energy Research Abstracts* 1989 whoever wants to understand the genesis of modern science has to follow three lines of development all starting in antiquity which were brought together in the work of isaac newton namely 1 ancient mathematics descartes 2 ancient astronomy copernicus i newton 3 ancient mechanics galileo huygens in science awakening i dutch edition 1950 first english edition 1954 second 1961 first german edition 1956 second 1965 i have followed the first line giving an outline of the development of mathematics in egypt babylonia and greece volume ii dealing with egyptian and baby1onian astronomy first appeared in german under the title die anfänge der astronomie noordhoff groningen 1965 and birkhäu ser basel 1968 the volume was written in collaboration with peter huber swiss federal school of technology zürich huber has written considerable parts of chapters 3 and 4 in particular all transcriptions of

cuneiform texts in these chapters i also had much help from ernst weidner graz martin vermaseren amsterdam josef jansen leiden and manu leumann zürich *The Visible Universe* 1892 the historical novels of manuel zapata olivella and ana maria gonçaves map black journeys from africa to the americas in a way that challenges the black atlantic paradigm that has become synonymous with cosmopolitan african diaspora studies unlike paul gilroy who coined the term and based it on w e b dubois s double consciousness zapata in changó el gran putas 1983 creates an empowering mythology that reframes black resistance in colombia haiti mexico brazil and the united states in um defeito de cor 2006 gonçaves imagines the survival strategies of a legendary woman said to be the mother of black abolitionist poet luís gama and a conspirator in an african muslim led revolt in brazil s black rome these novels show differing visions of revolution black community femininity sexuality and captivity they skillfully reveal how events preceding the unesco decade of afro descent 2015 2024 alter our understanding of afro latin america as it gains increased visibility published by bucknell university press distributed worldwide by rutgers university press

**The American Ephemeris and Nautical Almanac** 1945 your 1 journal for writing your life s journey this blank 150 page journal will jump start your creativity with its minimal design and bright white pages it can be used for writing notes as a diary notebook to track your food exercise or just for writing down

important information this blank lined journal is a perfect gift for all occasions  
A Practical Guide to the English Kinder-garten (children's Garden) 1879 iau  
transactions xxiib summarizes the work of the xxiind general assembly the  
discourses given during the inaugural and closing ceremonies are reproduced in  
chapters i and iii respectively the proceedings of the two sessions of the general  
assembly will be found in chapter ii which includes the resolutions and the report  
of the finance committee the statutes bye laws and a few working rules of the  
union are published in chapter iv the accounts and other aspects of the  
administration of the union are recorded in chapter v together with the report of  
the executive committee for this last triennium and provide the permanent record  
for the union in the period 1991 1994 this volume also contains the commission  
reports from the hague compiled by the presidents of the commissions chapter vi  
finally chapter vii contains the list of countries adhering to the union and the  
alphabetical geographical and commission membership lists of about 8000  
individual members the iau still appears to be unique among the scientific unions  
in maintaining this category of individual membership which contributes in a  
crucial way to the spirit and the aims of the union

Cosmos 1871 other spanish theatres challenges established opinions on modern  
iberian theatre through a consideration of the roles of contrasting figures and  
companies who have impacted upon both the practice and the perception of

spanish and european stages in this broad and detailed study delgado selects six subjects which map out alternative readings of a nation s theatrical innovation through the last century these six subjects include margarita xirgu enrique rambal maría casarest and nuria espert
