The Lakeside Company : Case Studies in Auditing. Solutions

Manual 1997 a text for undergraduate students in auditing a teaching tool with a self learning approach which provides a collection of practical and illustrative audit case studies some with worked solutions covering a wide range of audit topics includes many difficult cases suitable for more advanced students as well as questions from past examination papers

Solutions Manual to Short Audit Case 1965-01-01 cases in auditing presents students with realistic problems in a case study format which they are required to solve by applying their knowledge of auditing theory and auditing and accounting standards the cases require the student to adapt auditing techniques to the demands of a particular situation the author believes that structuring the book in this way gives the student an appreciation of the need for the auditor to identify the key elements of a client s business and design an audit that is responsive to them the second edition contains updated versions of 14 of the earlier cases and adds 8 new cases covering an audit of a computerized accounting system auditor liability corporate governance environmental audit internal audit and the external auditor ethics and independence illegal acts by a client and risk and audit planning there are questions for discussion and suggestions for suitable reading for each case

Case Studies in Auditing 1995 second edition of a text for undergraduate students first published in 1995 now covers recent developments in assurance and other services and includes difficult case studies suitable for advanced second undergraduate courses or postgraduate courses in auditing includes questions from past examination papers and solutions to selected cases

Cases in auditing practice: Cases in Auditing Practice.- V.2. A
