management theoretical considerations from chinese practices is a collection of decades of research and applications of managing megaprojects using theories of complex systems and management sciences it presents basic classical theory of megaproject management and is a showcase of more than 30 years of research of complex system and management sciences on the theory of megaproject management resulting from the integrating of theory and practice of megaprojects the theory and models have undergone rigorous systematic testing during the management and implementation of megaprojects in china megaprojects are huge undertakings often in infrastructure bridges tunnels airports etc that involve huge levels of investment often take years to complete and typically run into delays cost overruns and any number of unforeseen problems over the last few decades no one country has undertaken more of these projects than china and this book presents the fundamental theories underlying the practice of mega infrastructure construction management as practiced in china individual chapters provide a basic definition of mega infrastructure construction and it s management an overview of the theories behind it the formation path basic concepts fundamental principles scientific problems the method system of meta synthesis specialized methods in research and intelligent management of mega

infrastructure construction although the theoretical construction management problems in this book are derived from construction practices in china they can be applied universally and extended for great fundamental significance projects are the engines that drive innovation from idea to commercialization in fact the number of projects in most organizations today is expanding while operations is shrinking yet since many companies still focus on operational excellence and efficiency most projects fail largely because conventional project management concepts cannot adapt to a dynamic business environment moreover top managers neglect their company s project activity and line managers treat all their projects alike as part of operations based on an unprecedented study of more than 600 projects in a variety of businesses and organizations around the globe reinventing project management provides a new and highly adaptive model for planning and managing projects to achieve superior business results identifying the origins and evolution of innovation and project management this unique handbook explains why and how the two fields have grown and developed as separate disciplines highlighting how and why they are now converging it explores the theoretical and practical connections between the management of innovations and projects examining the close relationship between the disciplines this book provides a powerful insight into strategic portfolio management and its central role in the delivery of organisational strategy maximisation of value creation and efficient allocation of resources and capabilities to achieve organisational strategic objectives the book makes a valuable contribution to the development of thinking on the translation of strategy into actionable work whether you are a senior manager building a high performing strategic portfolio for your organisation or an academic searching for new perspectives on strategy execution through portfolio management you will find great significance in this book twenty eight chapters in four sections provide multiple perspectives on the topic with in depth guidance on organisational design for strategic portfolio management and covering all process capability and leadership aspects of strategic portfolio management the book includes several detailed case studies for the effective deployment of strategic portfolios bringing together theory and practice for strategic portfolio management this book is particularly valuable for advanced undergraduate and postgraduate students of project and portfolio management strategic management and leadership who are looking to expand their knowledge within the multi project environment highly practical and logical in its structure it also shows project management professionals how to effectively manage their business portfolios and align this with their business strategy the goals of the national workshop on micro enterprise development in coastal communities in the philippines were to exchange experiences and good practices and to identify financial and institutional support services and facilities to sustain livelihoods and micro enterprise development in coastal areas the workshop was attended by 45 participants from people s organizations fisherfolk cooperatives non governmental organizations national government agencies and financing institutions the discussions at the workshop showed that livelihood diversification and the improvement of income and employment opportunities in coastal fishing communities are crucial for their participation in the conservation and management of aquatic resources key elements of sustainable micro enterprise development as identified by the workshop include capability building of fisherfolk organizations such as cooperatives and associations to implement livelihood projects the preparation of feasibility studies and business plans technical skills development sound financial management practices development of innovative and high quality products access to new markets including urban and regional markets and the full participation of fisherfolk in the identification of livelihood activities and micro enterprises the pilot project in support of the development of micro enterprises in banate bay iloilo and southern iloilo was implemented by the university of the philippines in the visayas in cooperation with the banate bay resource management council inc and the southern iloilo coastal resource management council with support from fao a number of microenterprises were introduced and supported in the municipalities of banate bay and southern iloilo including fish ball production shrimp paste production oyster and mussel culture salt production and iodization fish marketing and fish sauce production training programmes were conducted for fisherfolk on product development and marketing of their products good coordination with local government units active participation of all stakeholders and conduct of appropriate training programmes are considered essential for the sustainability of the micro enterprises the involvement of fisherfolk in livelihood activities and micro enterprises is strengthening their participation in the fisheries and aquatic resources management councils of banate bay and southern iloilo the experiences of the pilot project also suggest that in order to make various income generating livelihood initiatives sustainable and stand on their own feet many of these need to develop further into full fledged micro enterprises considerable scope lies in farming of aquatic organisms such as seaweed shellfish and various fish species as well as in fisheries related value adding activities such as fish processing and marketing as far as the relationship between the conservation of aquatic resources and the generation of income is concerned the quality of the aquatic environment and the economic success of mariculture micro enterprises and activities are directly related this should create a strong motivation for fisherfolk entrepreneurs involved in such type of enterprises to be strong advocates and stewards of a healthy coastal ecology in the long term fisherfolk will benefit from the development of various micro enterprise initiatives it is clearly in their interest project management is an
