Palaeohistoria

2020-07-26

among the most socially and personally vocal
archaeological remains on the north american continent are
the massive and often complexly designed earthen
architecture of hopewellian peoples of two thousand years
ago their elaborately embellished works of art made of
glistening metals and stones from faraway places and their
highly formalized mortuaries in this book twenty one
researchers in interwoven efforts immerse themselves and
the reader in this vibrant archaeological record in order to

richly reconstruct the societies rituals and ritual interactions of hopewellian peoples by finding the faces actions and motivations of hopewellian peoples as individuals who constructed knowable social roles the authors explore in a personalized and locally contextualized manner the details of hopewellian life leadership its sacred and secular power bases recruitment and formalization over time systems of social ranking and prestige animal totemic clan organization kinship structures and sodalities gender roles prestige work load and health community organization in its tri scalar residential symbolic and demographic forms intercommunity alliances and changes in their strategies and expanses over time and interregional travels for power questing pilgrimage healing tutelage and acquiring ritual knowledge this book is useful to scholars graduate students and advanced undergraduates interested in the workings and development of social complexity at local and interregional scales recent theoretical developments in the anthropology of the topics listed above the prehistory of eastern north america its history of intellectual development and native american ritual symbolism and belief

empowering bernard lonergan s legacy offers an interdisciplinary approach to lonergan s work it presents a series of five feedback matrices to situate his work within a historical context the matrices also serve to establish foundations for an interdisciplinary ethics and a method for interreligious dialogue feedback and matrix are key but previously unstressed notions in lonergan s work the book s final two collaborative feedback matrices could best be implemented in a proposed international lonergan association raymaker argues that without such an association lonergan s breakthrough method cannot reach its interdisciplinary and collaborative potential one of lonergan s most important achievements was his development of foundations for the sciences ethics and

interreligious dialogue one can best empower one's legacy through a correct understanding and implementation of how the data of human consciousness affects all human knowledge and activities
