john calvin lived in a divided world when past certainties were crumbling calvin claimed that his thought was completely based upon scripture but he was mistaken at several points in his thought and his ministry he set his own foundations upon tradition his efforts to make sense of his culture and its religious life mirror issues that modern western cultures face and that have contributed to our present situation in this book r ward holder offers new insights into calvin s successes and failures and suggests pathways for understanding some of the problems of contemporary western culture such as the deep divergence about living in tradition the modern capacity to agree on the foundations of thought and even the roots of our deep political polarization he traces calvin s own critical engagement with the tradition that had formed him and analyzes the inherent divisions in modern heritage that affect our ability to agree not only religiously or politically but also about truth an epilogue comparing biblical interpretation with constitutional interpretation is illustrative of contemporary issues and demonstrates how historical understanding can offer solutions to tensions in modern culture

Interpreting Scripture across Cultures is a book by James K. Beilby and Paul J. Thane. It explores the challenges of interpreting the Bible in a global context, where different cultures and worldviews may have different understandings of the text. The book discusses the importance of understanding the cultural and historical context of the Bible, and how this can help us to better understand the message of the text. It also discusses the role of the church in interpreting the Bible, and how this can be done in a way that is sensitive to different cultures and worldviews.

Has God said? Has God actually spoken? Declared himself and his purposes to us? Historically, the Christian faith has affirmed God's redemptive revelatory speaking as historical, contentful, redemptive, centrally in Jesus Christ, and under Christ, and by the Spirit in the text of Holy Scripture. But in the past three centuries, developments in Western culture have created a crisis in relation to historical divine authority. The modern reintroduction of destructive dualisms—cosmological and epistemological—via Descartes, Newton, Spinoza, and Kant have injured not only the physical sciences (e.g., positivism) but Christian theology as well. The resulting eclipse of God has permeated Western culture in terms of the Christian understanding of revelation. It has meant the separation of God from historical action, the rejection of God's actual self-declaration, and especially in textual form, Holy Scripture. After critical analysis of these dualistic developments, this book presents the problematic effects in both Protestant (Schleiermacher, Bultmann, Tillich) and Roman Catholic (Rahner, Dulles) theology. The thought and influence of Karl Barth on the nature of Scripture is examined and distinguished from most Barthian approaches. The effects of dualistic Barthian thought on contemporary evangelical views of Scripture (Pinnock, Fackre, Bloesch) are also critically analyzed, and responses made. Helm Wolterstorff, Packer. The final chapter is a Christocentric, multileveled reformulation of the classical Scripture principle via Einstein, Torrance, and Calvin that reaffirms the Church's historical identity thesis that Holy Scripture is the written word of God, a crucial aspect of God's larger redemptive revelatory purpose in Christ.

## Calvin and the Christian Tradition

In this major contribution to the study of the Chinese classics and comparative religion, John Henderson uses the history of exegesis to illuminate mental patterns that have universal and perennial significance for intellectual history. Henderson relates the Confucian commentarial tradition to other primary exegetical traditions, particularly the Homeric tradition, Vedanta, Rabbinic Judaism, ancient and medieval Christian biblical exegesis, and Qur'anic exegesis. In making such comparisons, he discusses some basic assumptions common to all these traditions, such as that the classics or scriptures are comprehensive or that they contain all significant knowledge or truth, and analyzes the strategies deployed to support these presuppositions, as shown here. Primary differences among commentarial or exegetical traditions arose from variations in their emphasis on one or another of these assumptions and strategies. Henderson demonstrates that exegetical modes of thought were far from arcane; they dominated the post-classical, premodern intellectual world. Some have persisted or re-emerged in modern times, particularly in ideologies such as Marxism. Written in an engaging and accessible style, Scripture, Canon, and Commentary is not only a challenging interpretation of comparative scriptural traditions but also an excellent introduction to
