in this world the creatives and the squares the creative types

called speculators by pareto are defined by a constant
interest in the possibilities of new combinations the other type
rentiers are described as conservative steady habitual people
pareto believes that the creatives manipulate the squares
training the mind the importance of training your mind in the
art of producing ideas using method and principles combining
old elements an idea is nothing more nor less than a new
combination of old elements mr young believes this is the
most important principle in a technique for producing ideas he
then reveals the second most important principle which
allows one to make new combinations of old elements and
that is the ability to see relationships between disparate
things ideas are new combinations this chapter introduces
you to the method the method or idea producing technique is
made up of 5 steps step 1 discusses gathering general and
specific raw material specific raw material is information that
centers on your idea the product s specs features benefits

2023-01-14 6/28
competition and marketability general knowledge is important

as it gives you more raw material to work with in using

relationships and making new combinations the mental
digestive process this chapter explores the second step of
the technique this involves mulching and digesting the raw
material you have gathered young explains you must feel
your way through each bit of knowledge turning it over and
over in your mind then extracting multiple meanings and
significances like a jigsaw puzzle you play with different bits
of ideas to see how they fit together you will need a notebook
to transcribe your thoughts and half ideas as they come to
you sleep is the third stage letting go allows your
unconscious mind to deal with it constantly thinking about it
the fourth step discusses how new ideas just appear when
you least expect them through the entire process of gathering
data mulling over your information engaging in other activities
your mind will create new ideas without any warning the final
stage this final stage is your reality check time you must test
edit refine and polish your idea this is the time to take your
new idea and hold it up to the harsh light of reality some after

thoughts mr young reveals his own personal experiences with
these techniques and re emphasizes how new knowledge
and experience can lead to new ideas and profitable rewards
why are some people capable of producing great new ideas
on demand the book closes with examples and testimonials
of past readers and how his method has worked for them you
will also receive information on recommended books to
further your understanding of the idea producing process
