## Barbara's History *1864*

Barbara's heritage is an adventure novel written by Deris the 1 Hoyt. The story follows Barbara and Bettina, Bab and Betty as they were called in their home. Twin daughters of Dr. Burnett, they were seventeen years old and the eldest of a large family. The father, a great-hearted man devoted to his noble profession and generous of himself, his time, and money, had little to spare after the wants of his family had been supplied, and so his daughters set off to a trip to Italy to connect with their heritage.

## **City Room** *2004-11-02*

The dramatic events behind the film *Bridge of Spies* riveting, meticulously researched, and beautifully written. *Bridge of Spies* unlocks one of the most fascinating espionage mysteries of the Cold War. Ben MacIntyre, author of *Agent Zigzag* and *Sas: Rogue Heroes*, *Bridge of Spies* is a gripping, entertaining, hair-raising, and comical story which moves effortlessly from the hardware of high-flying planes and new missiles to the geopolitics of the nuclear stand-off and through the poignant personal stories of its central protagonists. Powers, the all-American hero blacklisted for not having killed himself on his descent to earth, a KGB spy who has spent aimless and lonely years achieving nothing in the US and the opposing leaders Khrushchev and Eisenhower both trapped in a spiral of confrontation. Neither wants to tell the true story that inspired Le Carré's famous scene. *Bridge of Spies* is a brilliant take on the absurdity and heroism of the Cold War days that will appeal to a new generation of readers unfamiliar with the history but drawn in by the compelling and vividly recreated narrative.

## **Frank Leslie's Lady's Magazine** *1869*

In 1986, Dr. David Snowdon, one of the world's leading experts on Alzheimer's disease, embarked on a revolutionary scientific study that would forever change the way we view aging and ultimately living. Dubbed the Nun Study because it involves a unique population of 678 Catholic sisters, this remarkable long-term research project has made headlines worldwide with its provocative discoveries. Yet *Aging with Grace* is more than a groundbreaking health and science book; it is the inspiring human story of these remarkable women ranging in age from 74 to 106 whose dedication to serving others may help all of us live longer and healthier lives. Totally accessible, with fascinating portraits of the nuns and the scientists who study them, *Aging with Grace* also offers a wealth of practical findings: why building linguistic ability in childhood may protect against Alzheimer's; which ordinary foods promote longevity and healthy brain function; why preventing strokes and depression is key to avoiding Alzheimer's; what role heredity plays and why it's never too late to start an exercise program; how attitude, faith, and community can add years to our lives. A prescription for hope, *Aging with Grace* shows that old age doesn't have to mean an inevitable slide into illness and disability. Rather, it can be a time of promise and productivity, intellectual and spiritual vigor, a time of true grace.
