Chicorel Index to Poetry in Anthologies and Collections in Print 1974 histories of voice are often written as accounts of greatness great statesmen notable rebels grands discours and famous exceptional speakers and singers populate our shelves this focus on the great and exceptional has not only led to disproportionate attention to a small subset of historical actors powerful white western men and the occasional token woman but also obscures the broad range of vocal practices that have informed co created and given meaning to human lives and interactions in the past for most historical actors life did not consist of grand public speeches but of private conversations intimate whispers hot gossip or interminable quarrels this volume suggests an extended practice of eavesdropping rather than listening out for exceptional voices it listens in on the more mundane aspects of vocalicity including speech and song but also less formalized shouts hisses noises and silences ranging from the scottish highlands to china from the bedroom to the platform and from the 18th until the 20th century contributions to this volume seek out spaces and moments that have been documented idiosyncratically or with difficulty and where the voice and its sounds can be of particular salience in doing so the volume argues for a heightened attention to who speaks and whose voices resound in history but refuses to take the modern equation between speech and presence representation for granted

American Fiction In PerspectiveContemporary Essays 1997 john keegan s groundbreaking portrayal of the common soldier in the heat of battle a masterpiece that explores the physical and mental aspects of warfare the face of battle is military history from the battlefield a look at the direct experience of individuals at the point of maximum danger without the myth making elements of rhetoric and xenophobia and breaking away from the stylized format of battle descriptions john keegan has written what is probably the definitive model for military historians and in his scrupulous reassessment of three battles representative of three different time periods he manages to convey what the experience of combat meant for the participants whether they were facing the arrow cloud at the battle of agincourt the musket balls at waterloo or the steel rain of the somme the face of battle is a companion volume to john keegan s classic study of the individual soldier the mask of command together they form a masterpiece of military and human history

A Companion to Victorian Poetry 2008-04-15 divin this engaging book david rosen offers a radically new account of modern poetry and revises our understanding of its relation to romanticism british poets from wordsworth to auden attempted to present themselves simultaneously as persons of power and as moral voices in their communities the modern lyric derives its characteristic complexities psychological ethical formal from the extraordinary difficulty of this effort the low register of our language a register of short concrete native words arranged in simple syntax is deeply implicated in this story rosen shows how the peculiar reputation of plain english for truthfulness is employed by modern poets to conceal the rift between their probably irreconcilable ambitions for themselves with a deep appreciation for poetic accomplishment and a wonderful iconoclasm rosen sheds new light on the innovative as well as the self deceptive aspects of modern poetry this book alters our understanding of the history of poetry in the english language div

Thomas Hardy 2018-10-08 this book explores how british romantic poetry the writing reading and critical reception of it reinforced british nationalism in the 19th century ripening the political processes of nationhood that began with the first act of union in 1707 using archival research on literary collections criticism and reviews this study documents the rise of bardic criticism in the 18th century a style of literary criticism that reinvented the vernacular poet as a national bard and established a national role for poetry within this context this book offers a new reading of major works by romantic poets from wordsworth and coleridge to felicia hemans and anna letitia barbauld illuminating the ways they corroborated the public image of poets as bona fide national bards and advanced british nationalism even when they intentionally set out to oppose or reform the politics of state

Selected Poems of William Wordsworth 1958 valedictory addresses offer a way to conceptualize the relation of self to others private to public ephemeral to eternal whether deathbed pronouncements political capitulations or seafaring farewells parting words played a crucial role in the social imagination of victorian writing in this compelling new book justin sider traces these public addresses across a wide range of works from poems by byron tennyson and browning to essays by twain and wilde to novels by dickens and eliot ironically while the victorian era saw the loss of faith in a unitary national public it asked poetry to address just such a public attending to the form rather than the discursive content of poets engagement with public culture parting words explains how the valedictory allowed victorian poets to explore the ways their poems might be received by distant and anonymous readers in an emergent mass culture using a wide array of materials such as letters and reviews to describe the rapidly changing print culture in which poets were intervening sider shows how the growing diversification and destabilization of the victorian reading public was countered by the demand for a public poetry characteristically the speakers of tennyson s ulysses and matthew arnold s empedocles on etna imagine their farewells as simultaneous entrances into a public space where they and their readers however distant might yet meet this new consciousness anticipated modernist poetry which in turn used the valedictory to underscore the futility and alienation of such hopes
