match countif sumif and more the microsoft excel test is a
proficiency evaluation that assesses your excel knowledge and
skills from basic excel functions such as wrapping text and
keyboard shortcuts to more complex data analysis functions such
as filtering data and financial calculations in excel the if function
allows you to make a logical comparison between a value and
what you expect by testing for a condition and returning a result if
that condition is true or false if something is true then do something
otherwise do something else for each question simply select one of
the four possible answers a b c or d you can pass questions to
come back to them later and mark answers as not known you start
with 20 points you ll get 4 points for each question you get right
but lose 1 point for each question that you get wrong it is therefore
a bad idea to guess updated march 10 2023 some jobs ask
applicants to take tests to gauge their ability to use popular
software like microsoft excel if you have an upcoming job interview
with an excel test it can help to study some common test questions
you might encounter testimonials 100 free and interactive excel
