The early modern period is a historical period that is part of the modern period based primarily on the history of Europe and the broader concept of modernity. There is no exact date that marks the beginning or end of the period and its timeline may vary depending on the area of history being studied. Europe about 1560 as in the 1923 William Shepherd Atlas regardless of the precise dates used to define its beginning and end points the early modern period is generally agreed to have comprised the Renaissance, the Reformation, the Scientific Revolution, and the Enlightenment. The emergence of modern Europe 1500-1648. Economy and society the 16th century was a period of vigorous economic expansion. This expansion in turn played a major role in the many other transformations social, political, and cultural of the early modern age. Historians' understanding of the early modern period has been affected by their different views of modernity itself whose foundations are commonly seen to have been established at some point between the Renaissance and the French Revolution. Differences of periodization reflect different ideas about the crucial moments in modernity's unfolding. The beginning of the early modern and thus the end of the medieval period also called the Middle Ages is associated with a group of fundamental changes that occurred in the late fifteenth and early sixteenth centuries. This chapter examines the emergence of the idea of early modern history during the 1960s and 1970s and explains its origins particularly in modernization theory and in the expansion of the university system at that period. Aspects of early modern society to examine: the psychology of merchants; is to stay within a narrow social elite; historians in what is sometimes called the new social history have paid close attention to the common people of Europe and to hitherto neglected social groups: women, the nonconformists, and minorities. Early modern studies traditionally seen as an age of transition between the Middle Ages and modern times c. 1450-1800. The early modern period evades precise definition when it comes to its timeframe, geographical relevance, and overall characteristics, thus continually generating productive discussions about periodizations and methodology.
