2023 11 18 system of systems sos set of systems or system elements that interact to provide a unique capability that none of the constituent systems can accomplish on its own note systems elements can be necessary to facilitate the interaction of the constituent systems in the system of systems

system of systems is a collection of task oriented or dedicated systems that pool their resources and capabilities together to create a new more complex system which offers more functionality and performance than simply the sum of the constituent systems
