

Free ebook Elephant dk eyewitness books library binding .pdf

library binding is one of the activities typically included in newly created preservation departments but librarians continue to discover that transforming a traditional binding program into one that better meets preservation objectives requires considerable investment of time this resource guide is intended to help libraries review their binding activities from a preservation perspective through the following 1 suggesting a strategy for gaining expertise through reading and observation 2 outlining a plan for evaluating the library s and the binder s practices and policies 3 presenting a strategy for initiating change and 4 identifying issues that merit attention and discussion thirty six articles dealing with a binding program and relations with a binder are presented a bibliography lists an additional 18 sources for further reading sld digicat publishing presents to you this special edition of library bookbinding by arthur low bailey digicat publishing considers every written word to be a legacy of humankind every digicat book has been carefully reproduced for republishing in a new modern format the books are available in print as well as ebooks digicat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature this early work on bookbinding is both expensive and hard to find in its first edition it contains detailed instructions of the methods and materials involved in book preservation and binding this is a fascinating work and thoroughly recommended for bookbinders and librarians many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce we are republishing these classic works in affordable high quality modern editions using the original text and artwork the growing interest in preservation of library collections has fueled the use of the library binding institute standard for library binding because the lbi standard is based on the assumption that the reader understands the machinery and processes employed by the library binding industry descriptive text is minimal this guide translates the technical language of the lbi standard into usable information that should enable librarians to use the lbi standard to its fullest advantage excerpt from notes on bookbinding for libraries in the first edition of this book i said that it ought not to be taken as a final authority but as a set of suggestions which i hoped would arouse interest in the subject of library binding and lead a few to pursue the subject further some of the changes made for this edition indicate that i have followed the topic a little further myself i hope with advantage to my readers several chapters are new there are many minor changes and omissions the lists have been enlarged and brought into one i had looked into the subject of library binding and discovered the ignorance concerning it of amer ican librarians including myself before i visited mr chivers beautiful bindery in bath england several years ago that visit had much to do with the con tents of this little book mr chivers was quite of my opinion that the only way to induce librarians in america to improve our binding was to persuade us to look into the subject if the book has led some to do this it has accomplished its purpose as to the fundamental points in it they largely come i am pleased to confess from england by way of that bindery in bath about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works considered by many bookbinders and librarians to be the clearest and most valuable exposition of hand bookbinding in english this volume concisely covers virtually every aspect of the craft from folding and collating pages trimming and gilding edges to preparing covers designing and inlaying on leather and creating clasps and ties first published in 1990 the business of bookbinding is bookbinding from the point of view of the binder the publisher the librarian and the general reader including chapters on the manufacture of binders leather and cloth and a description of working bindery together with a glossary of terms used in leather and cloth manufacture and bookbinding excerpt from library bookbinding it has been the purpose of the writer in these chapters on library bookbinding to set forth as clearly as possible the best information relating to processes materials routine and various other lesser matters pertaining to bookbinding which must be taken into consideration by librarians or by assistants in charge of binding departments although much of this information exists elsewhere in printed form it is scattered through various books and articles in some respects therefore this book is a gathering together of scattered material it is hoped however that there is enough new material to make the book of interest to those who deal daily with binding problems and that the book as a whole may help to solve some of the questions relating to binding in libraries both large and small most books on binding and all books on library binding have devoted some space to paper its composition manufacture finish and use as the subject is so fully dealt with elsewhere it has not been included here those who are interested will find full information in the technical books on paper in mr dana s notes on book binding for libraries and in messrs coutts and stephen s manual of library binding about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works the reasons for binding the leaves of a book are to keep them together in their proper order and to protect them that bindings can be made that will adequately protect books can be seen from the large number of fifteenth and sixteenth century bindings now existing on books still in excellent condition that bindings are made that fail to protect books may be seen by visiting any large library when it will be found that many bindings have their boards loose and the leather crumbling to dust this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original

artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work as a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

Library Binding Institute Standard for Library Binding 1963 library binding is one of the activities typically included in newly created preservation departments but librarians continue to discover that transforming a traditional binding program into one that better meets preservation objectives requires considerable investment of time this resource guide is intended to help libraries review their binding activities from a preservation perspective through the following 1 suggesting a strategy for gaining expertise through reading and observation 2 outlining a plan for evaluating the library's and the binder's practices and policies 3 presenting a strategy for initiating change and 4 identifying issues that merit attention and discussion thirty six articles dealing with a binding program and relations with a binder are presented a bibliography lists an additional 18 sources for further reading sld
