published as the dec 1961 issue a study of the content development and transmission of german identity during the nineteenth century as germany s national narrative took shape in historical fiction and in both popular and academic history the german speaking inhabitants of central europe did not automatically think of themselves as germans not before 1871 and not always after unification in fact they spoke mutually incomprehensible dialects owed allegiance to different leaders worshiped in different churches and would not have recognized each other s customs if asked about their identity these prospective germans might have answered austrian bavarian or prussian and they could as easily have used more local labels or resorted to occupational markers for this disparate population to think of itself as german that word had to acquire content people had to learn a whole set of stories they could tell themselves and to others in answer to the question of identity history fiction and germany chronicles how german nationalism developed simultaneously with the historical novel and the field of history both at universities and in middlebrow reading material the book examines germany s emerging national narrative as nineteenth century writers adapted it to their own visions and to changing circumstances these writers found and popularized the nation s heroes and heroines demonized its villains and enemies and projected the nation s hopes and dreams for the future author brent o peterson argues that it was the production and consumption of national history the writing and reading of the nation that filled germany with germans although the task of national narration was never complete and never produced a single universally accepted version of german national identity tales from germans gradually shared history did more to create germany than any statesman general or philosopher history fiction and germany provides a valuable resource for scholars and students of german studies as well as anyone interested in history and the articulation of national identity in the midst of the horrors of the nazi holocaust etty s writings reveal a young jewish woman who celebrated life and remained an undaunted example of courage sympathy and compassion through this splendid translation by arnold j pomerans commissioned by the etty hillesum foundation readers everywhere will resonate with the spirit of this amazing young woman english german bilingual children s book perfect for kids studying english or german as their second language jimmy the little bunny is in trouble accidentally he ruined his mother favourite flowers will it help if he lies or is it better to tell the truth and try to solve the problem in different way help your children to learn to be more honest with this fun children s book examines the image of the us in german poetry and the reception and influence of american poetry in germany since 1945 this book focuses on the image of the us in german poetry and the reception of american poetry in germany since 1945 gregory divers examines poems by major figures in 20th century german literature benn brecht bachmann jandl and grass among others and by other poets who shaped america s postwar image in germany divers traces america s postwar status in germany from the prisoner of war poems of günter eich to the pop poetry of rolf dieter brinkmann and peter handke continuing he finds that although the 1960s protest poems of erich fried and others reflect the tarnishing of america s image due to vietnam 1970s travel poems by brinkmann kunert and kunze confirm the resiliency of that image finally divers looks at poems by hartung delius and kling to illustrate the new heights reached by america s image within german literary circles during the

body language of his owner and other observers who would bend almost imperceptibly at the waist with every hoof beat and stand erect when the correct count was reached and Candland discusses the many attempts to communicate with our closest neighbor the apes we read of Richard Lynch Garner's 1892 experiment living with chimpanzees in Gabon he taught one to say the French word feu and of Gua raised by W. N. and I. A. Kellogg alongside their own son Donald and of the latest successes of teaching sign language to such precocious apes as Sarah Sherman Austin and Koko throughout Candland illuminates the boldest and most intriguing efforts yet to extend our world to that of our fellow creatures and he shows that in the end our effort to make contact is a reflection of the way in which we as a species create and order our universe humans have long shown a wish to connect with the silent minds around them in assembling and interpreting the compelling tales in this book Candland offers us a new understanding not only of the animal kingdom but of the very nature of humanity and our place in the great chain of being

William Blake never travelled to the continent yet his creation myth is far more European than has ever been acknowledged the painter Henry Fuseli introduced Blake to traditional European thinking and Blake responded to late 18th century body theory in his *Urizen* books 1794-95 which emerged from his professional work as a copy engraver on Henry Hunter's translation of Johann Caspar Lavater's *Essays on Physiognomy* 1789-98 Lavater's work contains hundreds of portraits and their physiognomical readings Blake, Fuseli, Joshua Reynolds and their contemporaries took a keen interest in the ideas behind physiognomy in their search for the right balance between good likeness and type in portraits Blake, Lavater and *Physiognomy* demonstrates how the problems occurring during the production of the Hunter translation resonate in Blake's treatment of the Genesis story Blake takes us back to the creation of the human body and interrogates the idea that God created man after his own likeness he introduces the net of religion a device which presses the human form into material shape giving it personality and identity as Erle shows Blake's startlingly original take on the creation myth is informed by Lavater's pursuit of physiognomy the search for divine likeness traced in the faces of their contemporary men

to what extent do minority writers feel represented by the literary canon of a nation and its body of great works to what extent do they adhere to or contest the supposedly universal values conveyed through those texts and how do they situate their own works within the national tradition building on Edward W. Said's contrapuntal readings and Gayatri Chakravorty Spivak's reflections on the voice of the subaltern this monograph examines the ways in which Rafik Schami, Emine Sevgi Özdamar and Feridun Zaimoglu have re-read, challenged and adapted the German canon similar to other writers in postcolonial contexts their work on the canon entails an inquiry into history and a negotiation of their relation to the texts and representations that define the host nation through close analyses of the works of these non-native German authors the book investigates the intersection between politics, ethics and aesthetics in their work focusing on the appropriation and re-evaluation of cultural legacies in German language literature opening up a rich critical dialogue with scholars of German studies and postcolonial theory Christine Meyer provides a fresh perspective on German language minority literature since the reunification watch our talk with the editor Christine Meyer here [youtu.be/bion8q5qiu](#)
