Journals of the Century 2019-12-06 the publication of scholarly research is both a major driver of social progress and a significant industry in its own right scholarly research is the focus of attention for countless numbers of scholars globally and a key measure of scholarly excellence much has been written about the conduct of research that is designed to help scholars attain appropriate standards of rigor and relevance and indeed craft their research outputs in ways appropriate for different venues notably as journal articles conference papers book chapters and books however although scholarly researchers fulfill roles other than as authors for instance as journal reviewers and editors there is a dearth of consolidated information about the nature of editorial work drawing on over two decades of experience in editing scholarly journals the author offers a more systematic guide to scholarly journal editing the book begins with an introduction to the art of scholarly journal editing the nature of that art chapter 1 and an examination of editorial promulgation of cultural values of scholarly journals with an emphasis on responsible research chapter 2 chapter 3 examines the many issues associated with sourcing content and opines on the novelty breadth and depth of research including discussions of indigenous theorization serendipity iconoclastic research and the value of special issues chapter 4 deals with the review process and offers advice

for formulating effective reviewer guidelines that lead to constructive and developmental advice for authors the next two chapters discuss the audience of the journal as well as publisher relations finally the book is concluded with thoughts and recommendations about emerging challenges such as the ethics of ai tools like chatgpt predatory journals and the open access movement offering a practical guide to editing scholarly journals this book will be a key resource for scholars making the leap from researcher to editor regardless of discipline

How to Get Research Published in Journals 1996 journal of education and learning edulearn is an interdisciplinary international journal of original research and writing on education the edulearn aims to provide a forum for scholarly understanding of the field of education and plays an important role in promoting the process that accumulated knowledge values and skills are transmitted from one generation to another and to make methods and contents of evaluation and research in education available to teachers administrators and research workers breaking the barriers of a silenced identity teacher trainees attitudes towards the bilingual presentation in hebrew and amharic baratz lea 87 transformative learning model for youth life skills entrepreneurs in poor weavers songket palembang ayi olim berthana 99 computer presentation programs and teaching research methodologies vahid motamedi 111 effects of cooperative integrated reading and composition learning model on the english learning skills hadiwinarto hadiwinarto novianti novianti 117 toward a better preparation of student teachers reading skill the sq3r strategy with authentic and simplified texts on reading literacy and vocabulary mastery robi soma amirul mukminin noprival noprival 125 an investigation on organizational charlatan behaviour and moral identity as predictors of shame importance for education juneman abraham rahma putri noka berline 135 effects of an informal energy exhibit on knowledge and attitudes of fourth grade students david goodman 145 the investigation of critical thinking dispositions of religious culture and ethics teacher candidates abdukkadir cekin 158 factors contributing to examination malpractices at secondary school level in kohat division pakistan qaiser suleman rizwana gul sadia ambrin farrukh kamran 165
