first edition boyle follows the premise that history makes geography whilst geography makes history and that the key to studying the principal demographic social political economic cultural and environmental processes in any region in the world today is to look at how that region has been impacted by and in turn has impacted the story of the rise reign and decline of the west moreover he argues that human geog raphy itself is best understood as both an intellectual endeavour and a historical political and institutional project informed by recent developments in post colonial scholarship the book covers key concepts seminal thinkers and influential texts in the field although designed for the beginner student boyle does not shy away from ideas and debates often avoided in introductory texts clearly communicating theory without condescension in addition he places human geography in its larger academic context discussing the influences on the field from related subjects notable features in the second edition include extensive revision and updating of coverage of key ideas developments debates and case studies new chapter on uneven geographical development at different scales and development theory and practice dedicated coverage of covid 19s geographies new learning resources figures tables plates maps deep dive boxes etc throughout the text plus learning objectives essay questions checklists summarizing key ideas and guidance for further reading updated and expanded companion website with mp4 and mp3 chapter by chapter lectures and powerpoint slides
