zinc complex based hole transporting material for perovskite Feb 03 2022

2024-05-14 developing hole transport materials (HTMs) with high hole mobility is critical for constructing efficient perovskite solar cells (PSCs). We present a design strategy for improving hole mobility and PSC performance using a stable zinc complex based HTM (BPZ23) compared to its non-metal counterpart (BP21). The

elon musk s neuralink is seeking a second person to test its Jan 05 2022

2024-05-17 link copied elon musk's brain implant startup neuralink is accepting applications for a second human trial participant to test its device. The billionaire said on x friday the request comes

microfluidic mechanoporation current progress and Dec 04 2021

2024-05-17 intracellular delivery the process of transporting substances into cells is crucial for various applications such as drug delivery gene therapy cell imaging and regenerative medicine. Among the different approaches of intracellular delivery mechanoporation stands out by utilizing mechanical forces to create temporary pores.
