~~of mathematics this book serves as a structured revision program for all students undertaking~~
year 10 mathematics it has been designed to help students revise for class tests half yearly
and end of year exams it is structured to consolidate students understanding in line with
australian curriculum outcomes through concise study notes skills checks intermediate advanced
tests sample exam papers and worked solutions this book will ensure that your child is fully
prepared for class exams this book outlines the six steps to test and exam success step 1
study notes step 2 skills check step 3 intermediate test step 4 advanced test step 5 sample
exam papers step 6 check your worked solutions chapters number and algebra real numbers
functions and other graphs polynomials linear and non linear relationships algebraic
techniques measurement and geometry surface area and volume geometry circle geometry
pythagoras and trigonometry statistics and probability mean and standard deviation
investigations of data sets and reports this book has been written to broadly follow both the
australian and the nsw year 10 mathematics curriculum 5 3 it is intended to be a very thorough
and concise summary of most major core topics which are taught and covered in year 10 advanced
classes throughout australia please keep in mind that this curriculum is based on the work
covered in 2 years of high school year 9 and year 10 which implies that different schools may
teach the topics in a different order throughout the two year period therefore if you cannot
find a particular topic summary in this year 10 book for example measurement then you will
almost certainly find it explained in the understanding year 9 book this book will prove to be
very beneficial to students teachers and coaches in all states it has primarily been developed
to be used as an additional learning aid to the conventional school text book but it could
also be used as a class text on its own account content in the year 10 maths max series volume
5 covers the topics logarithms from the number and algebra strand of the nsw mathematics stage
5 2 and 5 3 syllabus year 10 mathematics and statistics learning workbook covers material from
levels 5 and 6 of the new zealand curriculum mathematics and statistics divided into the three
strands of number and algebra geometry and measurement and statistics the central focus of the
workbook is at level 5 of the new zealand curriculum with more than 170 sets of student
