The Drilling Manual 2015-04-01 an invaluable reference for members of the drilling industry from owner operators to large contractors and anyone interested in drilling developed by one of the world's leading authorities on drilling technology the fifth edition of the drilling manual draws on industry expertise to provide the latest drilling methods safety risk management and management practices and protocols utilizing state of the art technology and techniques this edition thoroughly updates the fourth edition and introduces entirely new topics it includes new coverage on occupational health and safety adds new sections on coal seam gas sonic and coil tube drilling sonic drilling dutch cone probing in hole water or mud hammer drilling pile top drilling types of grouting and improved sections on drilling equipment and maintenance new sections on drilling applications include underground blast hole drilling coal seam gas drilling including well control trenchless technology and geothermal drilling it contains heavily illustrated chapters that clearly convey the material this manual incorporates forward thinking technology and details good industry practice for the following sectors of the drilling industry blast hole environmental foundation construction geotechnical geothermal mineral exploration mineral production and development oil and gas on shore seismic trenchless technology water well the drilling manual fifth edition provides you with the most thorough information about the what how and why of drilling an ideal resource for drilling personnel hydrologists environmental engineers and scientists interested in subsurface conditions it covers drilling machinery methods applications management safety geology and other related issues

Enhancement of Industrial Energy Efficiency and Sustainability 2021-09-02 industrial energy efficiency has been recognized as a major contributor in the broader set of industrial resources to improved sustainability and circular economy nevertheless the uptake of energy efficiency measures and practices is still quite low due to the existence of several barriers research has broadly discussed them together with their drivers more recently many researchers have highlighted the existence of several benefits beyond mere energy savings stemming from the adoption of such measures for several stakeholders involved in the value chain of energy efficiency solutions nevertheless a deep understanding of the relationships between the use of the energy resource and other resources in industry together with the most important factors for the uptake of such measures also in light of the implications on the industrial operations is still lacking however such understanding could further stimulate the adoption of solutions for improved industrial energy efficiency and sustainability

Proceedings of the XV International Scientific Conference on Industrial Systems (IS'11) 2016-11-03 this book presents cutting edge work on innovative planning methodologies tools and experiences aimed at supporting the transition of our cities and regions towards a more smart and sustainable dimension this book comprises a selection of the best papers presented at the international conference smart and sustainable planning for cities and regions 2015 held in november 2015 in bolzano italy contributions from different research fields within urban and regional planning from the scientific as well as the professional community are presented energy planning for cities and regions how to couple the energy climate goals with the development or renovation of the built environment and how to tackle the vulnerability to climate change smart and sustainable technologies big data integrated infrastructures and mobility management from holistic geospatial tools to innovative apps and internet of things benefits costs and opportunities of urban transition toward a more smart and sustainable dimension accounting and assessment of values and trade offs within the decision making processes governance for smart and sustainable growth fostering place based policy making active and effective stakeholders participation co production and public private partnerships cooperation and demonstration projects their role in fostering the adoption of new approaches and technologies towards the
