whether you're a professional investor or just want to trade like one, buy high sell higher will show you how to pick winners, maximize gains and minimize losses. In this book, you'll learn how a stock's price is just the beginning of the story and that other indicators like moving averages and volume can help you to spot stocks that have momentum. You'll also learn how to determine the optimal moment to buy a stock, when to sell it, how to protect yourself against sudden reversals in the market, and how to capitalize on moments when other investors are retreating. What's the best month to buy tech stocks to sell an energy asset, and what is the one day of the year that you should never ever trade on? Answers to these and other questions are just some of the insights that Joe Terranova shares in *Buy High Sell Higher*. Terranova is a series regular on CNBC's *Fast Money* and the chief market strategist for Virtus Investment Partners, a firm with over 25 billion in assets under management. Prior to joining Virtus, he spent 18 years at MBF Clearing Corp, where he was the director of trading and managed more than 300 traders. As viewers of CNBC's *Fast Money* know, Joe is a master at demystifying the forces that drive today's markets. So why not let him show you how to use telltale signs to spot investments that are poised for lift-off?

Excerpts from the preface: How do you make a small fortune in the stock market? A start with a large one is a prime example of the Indian stock market's potential. Infosys: if you subscribed to 100 shares of Infosys at its 1993 IPO at a price of INR 95 per share, you would own 1,02,400 shares of the company today at an average price of INR 700 per share. That investment would now be worth over INR 7 crores.

Introduction: Taxmann's *Stock Market Wisdom* highlights the great potential of the stock market while guiding investors to invest wisely and how to avoid its pitfalls. It is an attempt to assist investors to understand the following: how the market system operates, how one should invest money in it, how one can generate wealth through it over the long term. The author has also explained how the markets have evolved, what their present stage is, where they're headed, and of course, how you can benefit with the help of multiple case studies featuring the following: India's top 25 years return chart; world stock exchange performance; the roller coaster journey of the Sensex from 100 to 41,000; amazing story of Reliance Industries, the first Indian company to enter the 10 trillion market cap club; Avenue Supermarts Ltd, the company that defies gravity, reviewed by Motilal Oswal Managing Director, Motilal Oswal Financial Services Ltd.

For any new investor who is starting his journey in stock markets or even an old investor who has not been yet able to decode investment success for himself, this is a fine book to start or restart the journey. As the case may be, the basics of investing and trading have been explained in a very lucid and simple manner, and the complete spectrum of investing has been covered: from history of the stock markets, the working of the stock markets, the basic of fundamental analysis, basics of technical analysis, concepts, dividends, bonus splits, buy backs, etc. Most importantly, a large part of this book is about behaviour analysis and how it impacts the investor returns. In this fascinating journey of stock market investing, contents of the book are as follows: why should you invest in the Indian stock markets, evolution of the stock market in

india market and interest behaviour right number of stocks in your portfolio invest in winners do not chase losers buy it hold it forget it strategy low pe vs high pe which one should you buy small vs large companies benefit from beaten down stocks impact of current events on the stock price pricing power life expectancy of companies dividend decisions bonus shares share split and right shares buyback of shares mutual funds and their relevance value investing investing in growth shares lessons in wealth creation from warren buffett trading vs investment sensible investments practical points key to multi bagger returns basics of fundamental analysis basics of technical analysis
