## ***10 Books in 1 - 10 Libros en 1 (Super Pack) - English Spanish Books for Kids (Inglés Español Libros para Niños) 2019-03-21***

the postromantic works of the spaniard rosalia de castro and the colombian josé asunción silva are indispensable in any anthology of 19th century spanish and latin american poetry however they found few appreciative readers during their lifetimes even while displaying two of the most sincere voices of the day devers book is unique it is the first comparison of castro s and silva s poetry their works have meaningful differences but

share remarkable likenesses in theme tone and style though it is doubtful that either was aware of the other s existence of interest to feminist critics is an interpretation of castro s literary vocation within a patriarchal society using the ideas of three 20th century spanish thinkers josé ortega y gasset xavier zubiri and pedro laín entralgo dever applies the concept of radical insufficiency to a comparison of the poets works radical insufficiency holds that humans lack a determined being and fixed course for life thus norms are not available to make the world intelligible humans experience feelings of uncertainty and emptiness which inevitably lead to anxiety confronted by the mystery and pathos of human life castro and silva both describe futile attempts to overcome this insufficiency through creation and contemplation of art human relationships and religion the significance of these writers has transcended their own time when examined in the context of spanish and latin american authors and thinkers who succeeded them the importance of their works will continue to grow

a history of the inquisition of spain in 4 volumes is one of the best known works by the american historian henry charles lea the spanish inquisition officially known as the tribunal of the holy office of the inquisition was established in 1478 by catholic monarchs ferninand ii of aragon and isabella i of castile it was intended to maintain catholic orthodoxy in their kingdoms and to replace the medieval inquisition which was under papal

control it became the most substantive of the three different manifestations of the wider catholic inquisition along with the roman inquisition and portuguese inquisition the inquisition was originally intended primarily to identify heretics among those who converted from judaism and islam to catholicism the regulation of the faith of newly converted catholics was intensified after the royal decrees issued in 1492 and 1502 ordering muslims and jews to convert to catholicism or leave castile the inquisition was not definitively abolished until 1834 during the reign of isabella ii after a period of declining influence in the preceding century the spanish inquisition is often cited in popular literature and history as an example of religious intolerance and repression

the servian commentaries on vergil are doubly distinguished they are among the very few ancient commentaries on classical latin texts to survive essentially intact and they exist in two radically different forms the original commentary created by the grammarian servius early in the fifth century emphasizing grammar and syntax and an augmented version produced in the seventh century when a reader blended his servius with much other

recherché ancient lore in the 1920s the medievalist edward kennard rand undertook to produce a truly modern edition that would fully reveal for the first time the character of the commentaries two versions all did not go smoothly however a volume devoted to aeneid 1 2 appeared in 1946 and another with the commentaries on aeneid 3 5 in 1965 this edition of the commentaries on aeneid 9 12 is the first new contribution to the series to appear in more than fifty years on his death in 2013 charles e murgia left publishable versions of the text upper and lower critical apparatuses and large parts of the introduction and he had gathered most of the data for a testimonial apparatus robert a kaster completed the work on the testimonia and introduction using some of murgia s other writings to supplement the latter added some subsidiary elements and prepared the whole for publication thanks primarily to murgia s work this edition is superior to its predecessors in the series and to all other editions of servius in every respect

## *¿Qué Hay? Libro del Alumno 2 2018-06-07*

this volume presents the first critical edition of books i ii of the final redaction of john buridan s questions commentary on aristotle s physics the edition is accompanied by a detailed guide to the contents of buridan s

questions

richard kilvington s commentary on aristotle s nicomachean ethics 14th century offers a unique perspective of argumentation by applying concepts and terminology from the fields of logic and physics to ethical dilemmas

## ***Polychronicon Ranulphi Higden Monachi Cestrensis 1871***

this book represents a prodigious study of judgment recognition practices in the central american states and is

for that reason alone an important and needed contribution to comparative law distinguished legal scholar robert c casad details the history and present arrangements in central america compares the central american system to interstate judgment recognition arrangements in the u s and the european economic community and considers important suggestions for reform in central america this book brings together for the first time in one source translated into english the texts of the relevant code provisions of each of the six central american countries as well as the text of the bustamante code the multi lateral treaty and the european economic community judgment recognition convention

## ***Rerum Britannicarum Medii Aevi Scriptores 1871***

in 1546 forty four years after the final voyage of christopher columbus and while the spanish conquistadors swept through the americas alonso mudarra published his tres libros de música three books of music these books devoted primarily to music for the vihuela voice and harp also contain six pieces that are described by the new harvard dictionary of music as the earliest printed music for the guitar in this case that would be the 4 course renaissance guitar in guitar music from tres libros de música george washington university guitar instructor eric

waters has transcribed and edited these six selections from the original 16th century tablature each piece is presented both in standard musical notation and in a modern adaptation of the original tablature with mensural rhythms printed above tablature and music are printed separately to eliminate page turns the companion cd for this book was recorded on a 1995 José Ramírez 1 a traditional concert guitar 650 mm string length with a capo at the third fret to better approximate the range of the renaissance guitar and facilitate use of the original fingering while the renaissance guitar was tuned proportionately the same as the first four strings of the modern guitar d g b e low to high the 1st piece in the book is tuned like a 4 string version of dropped d tuning c g b e these arrangements judiciously avoid the use of the 5th and 6th strings of the modern guitar to better emulate the original renaissance model

## **Serviani in Vergili Aeneidos libros IX-XII commentarii *2018-03-29***

stuart stirling tells the history of the inca princesses and of their conquistador lovers and descendants the detailed human stories of the princesses bring to life the world of the incas and their conquerors and shed new light on the darker corners of colonial history
