skills or tech industry knowledge will hold you back but here s the secret you don t need to learn how to code to break into the tech industry written by three former microsoft pms swipe to unlock gives you a breakdown of the concepts you need to know to crush your interviews like software development big data and internet security well explain how google s ad targeting algorithm works but google probably won t ask you how to explain it in a non technical interview but they might ask you how you could increase ad revenue from a particular market segment and if you know how google s ad platform works you ll be in a far stronger position to come up with good growth strategies we ll show you how robinhood an app that lets you trade stocks without commission makes money by earning interest on the unspent money that users keep in their accounts no one will ask you to explain this but if someone asks you to come up with a new monetization strategy for venmo which lets you send and receive money without fees you could pull out the robinhood anecdote to propose that yenmo earn interest off the money sitting in users accounts we ll talk about some business cases like why microsoft acquired linkedin microsoft interviewers probably won t ask you about the motive of the purchase but they might ask you for ideas to improve microsoft outlook from our case study you ll learn how the microsoft and linkedin ecosystems could work together which can help you craft creative impactful answers you could propose that outlook use linkedin's social graph to give salespeople insights about clients before meeting them or you could suggest linking outlook s organizational tree to linkedin to let hr managers analyze their company s hierarchy and figure out what kind of talent they need to add we ll further explore both ideas in the book either way you re sure to impress learn the must know concepts of tech from authors who have received job offers for facebook s rotational product manager google s associate product marketing manager and microsoft s program manager to get a competitive edge at your interviews how much more could you achieve with your life this remarkable book provides the key to unlocking the potential you already have there are no fancy formulae indeed the great strength herein is its simplicity indicating the power of love to open the way that is before us all everyone knows that when love dominates our actions we can surpass what is the norm in reading this book we see how the unlocking of what we have within is inevitable because it is there the ability to love what we do and love what we are brings out a new love of life it guides us to do things differently otherwise we remain as we are whatever your beliefs the power of love is known and proved while written with a love for the bible it reaches out and embraces everyone whatever their leaning it is not confined to christianity for love is universal nor is this about positive thinking visualisation it is about the reality of your unique potential fulfilled by the love in your heart this book is about decoding horoscope through a philosophical background with a unique amalgamation through mythological stories which gives us a clue as to how to atone for your sins in this book the author has covered all the dhan yogas veeprit raj yogas and neechbhang raj yogas with the timing of wealth we have the lock in the form of luck which represents the ninth house of lakshmi in the horoscope but sometimes we cannot find the right key to unlock the house of luck because of evil deeds or sinful acts done in the past life the native has shrapit dosh or curse which manifest in the present so a lock of past can be unlocked by finding a right key in present as our past has the clue of our present in a horoscope the intent of writing this book is not to claim to change someone s future but to help nurture and transform a native s future by doing karmic deeds so that natives can sail through easily in his her life this book is not about predictive astrology it is about sharing the philosophy of life that one has to adapt to lead a sin free life []\_\_\_\_\_\_ []\_\_\_\_ []\_\_\_\_ []\_\_\_\_ here dr janik abandons trying to fix what s wrong with education and teaching and instead argues replacing it with non traumatic curiosity based discovery driven
