excerpt from the thousand and one nights vol 1 of 3 or the arabian nights entertainments i have called this a complete edition to distinguish it from two others which have been published without mr lane s notes or his method of writing oriental words and with other variations from the standard edition the public appreciation of these notes and of the advantage of correctly written foreign words is i conceive proved by the call for the present edition on the subject of the mode of writing oriental words in european characters i need say little for the controversy has well nigh died out the present generation does not regard antiquated blunders as the familiar names of childhood but rather strives to attain accuracy in all things and those few who still cling to mahomet or mv hom should consistently exhume the forgotten m abound of the crusades about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
