slippers would break rods would break my skin would break and bleed my clothes would stain but my spirit remain untouched throughout her childhood priya saklani had only one friend fear which was constant she can t recollect the time when she felt needed she completely lacked the knowledge or understanding of what human affection meant because the only reason why people touched her was to abuse her longing for affection priya felt nothing more than an object who was being passed on from one man to another there was more to her than her body in what might seem dark for some readers initially the wounded healer depicts the undying strength and courage of a spirit who rose from the ashes like a phoenix and became a warrior from a victim the pain had a lot to teach her as she channelized that suffering as a stepping stone to a higher state of consciousness treating her scars like trophies priya turned her wounds to wisdom healing herself and today she is using that wisdom to help others heal the wounded healer a memoir of priya saklani details a compelling and ferocious insight into a mind and life of a victim of complex trauma demonstrating just how childhood affects every aspect of your life

20 of all sales from this title is donated to nexus institute in northern ireland this charity help to support survivors of sexual trauma it took me an awfully long time to speak out about my abusive childhood whether it was down to the fear instilled into me throughout years of threats and manipulations or the fear of being on my own i had been silenced for the best part of my life when i first told my story i felt the need to protect everyone involved including my abusive family to save myself any hassle i decided to change names and places and it helped for a while that was until my twisted aunt shone the spotlight on our whole family by now the can of worms was completely and i felt backed into a corner it was at this point i felt like i needed to stand up for myself once and for all i needed to protect myself after all my so called family never did pressing charges on my father was an emotional roller coaster and one of the hardest times in my life and although i was completely alone i felt the supported from every single survivor that had crossed my path whether they were online connections or survivors i have met in person i was doing it for every one of them as much as i was doing it for myself i found that over the years many survivors hadn t the strength to speak out let alone stand up to their abusers in court you see abuse can do that to you break you down so you doubt yourself and your own ability but we are a lot stronger than we give ourselves credit for so for me i was gaining justice not just for myself but for every single abuse survivor out there too abuse happens in all shapes and sizes and can affect you regardless of age or gender you are not any of the disheartening words you have been told nor are you the circumstances they placed you in and most of all you are not a victim you are a survivor and a mighty one at that i may never meet you but know i am proud of each and every one of you we all have a story inside us and we all experience life differently this is what makes us so interesting lots of love sarah xo

her name is diane jones today her presence is calm and warm i knew her as a quiet terrified child struggling to grow up nay even to stay alive in a large violent matriarchal family there was no father figure only a sequence of men diane was thirteen years old when i first met her through a program in the california department of social services i had been assigned to be big sister to a younger sister of diane this younger sister was also badly abused both in maternal violence and in sexual abuse as was diane but to a much lesser degree i thought of diane's mother as a raging bull with massive mood swings from manipulative and charming to a cruel mean and evil woman i myself was afraid of her if i had known what was really going on during the years i worked with the family i would not have had the power to do anything about it my only hope and motivation at that time was to give them a view of what life was like from a different perspective and thus help them be kinder to their children i am always appalled by the fact that social services felt it was best to keep children connected to their families no matter how monstrous the evil in the home twenty six years later we are all wiser melanie taylor
